

Chair Jama, Vice-Chair Starr, and Members of the Senate Interim Committee On Rules and Executive Appointments I am writing in opposition to SB 1505 and any forthcoming or proposed amendments, which would establish a workforce standards board, and I respectfully urge you not to advance the bill.

As a fairly newer employee of Capital Manor's leadership team as a Sr IT Director I am super impressed with how the operation and governance we currently have in place unlike any other companies I have worked for in my 30+ career history. The Board of Directors structure, oversight, strategic mindset, and agile decision making ensures we are serving our residents and the community at large.

With the introduction of this proposed bill would be very counterproductive to our residents safety and well-being and community

Regards
