Topic:

To whom it may concern:

I am writing to support HB 4153. Agriculture in Oregon has been a gift to communities and families. We are lucky to live in a state where farming can be an experience and not just a field. I support this bill to protect and allow farmers and future farmers the ability to continue the work they do. The local farms that I have been able to visit with farm stands, activities, and beautiful crops is something I hope one day to share with my family. It's important to protect accessibility and not add unnecessary barriers. I ask my legislators to support this bill.
