

Submitter:	Debra McGee
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1541

I support Senate Bill 1541!

Living rurally on the same land for 40 years I am acutely aware of climate change. Rain used to be spread out through the seasons with only a few months without rain. Now there are dry months that greatly increase fire risk to me and my neighbors.

Climate change is caused by burning fossil fuels. Fossil fuel corporations have dumped their garbage /pollution into our shared atmosphere without being held responsible for the planet harming chemicals that are heating the planet.

Time polluters should pay their fair share! Communities need help to harden their homes and make "fire wise" a way of living.

Please pass this bill - it is time - NOW!
