In 2000, SCOTUS selected their choice for President & winner of our US election ~ rather than allow for just ONE FULL RECOUNT OF FLORIDA VOTES.

I quit voting until 20 yrs later, when I WAS VERY MOTIVATED to eliminate a dangerous threat to American society, Federal government & our democratic institutions

Since before 2020, it's been tRump & MAGA partisan rhetoric, political propaganda, daily lies &/or nasty attacks on EVERYTHING & EVERYONE ~ everywhere. Real world verbal assaults, physical violence up to & including deaths.

I want and our entire US society & government NEEDS elections to ensure that even THE WORST of BAD ACTORS will follow through with any/all duties with honesty & integrity.

We've learned too many lessons THE HARD WAY over the last decade. ASSUME the worst of people, hope for the best & YET PREPARE FOR EVERY CONCEIVABLE route open for deceptive interpretation & ensure specific rules & conditions are administered, requiring strict adherence & written & signed agreements by all parties who are consenting to enforcement actions if they fail any duties or leave with their obligations incomplete/unfinished.

(Maybe 2-4 person Bipartisan integrity accountability partners or teams ~ each one keeps the other honest ~ everyone is partnered with a member of the opposing party or someone who's party: independent/unaffiliated)
