

I am in support of the HB-4134, increasing tourism lodging tax, for sure! As well as any other tax initiative in support of Oregon's wild places. Oregon is clearly falling short of supporting these places and as a born and raised Iregonism it really shows.

Old growth trees are becoming more rare when they used to be everywhere and wildlife don't have safe passages or places to live, it's a tragedy,

Please support this tax so we can begin to take care of our lands better.

Sincerely/
Kierce Jill hare
