HB4138

I support this bill in its entirety. Those that wish to enforce the law, if they are following the law themselves, should have no problem in being identified while doing their duty. A public citizen should have the right to know who is arresting them and on what grounds, not to be threatened, physically assaulted, or kidnapped by unidentified masked persons using black-book Gestapo tactics. Children should not be terrified to leave their homes, should not have to witness family members being brutally abducted by unknown masked agents. I support this bill in its entirety and further call on our state representatives to put their citizens first, as they were elected to do.
