

Submitter:

Mario Nudo

On Behalf Of:

Committee:

House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure, Appointment or
Topic:

HB4153

It is hard to understand why we are having to step up and support the work our farms across Oregon are doing, they have been supporting us and positively contributing to our society for centuries. Our farms provide safe and healthy recreation for families, they provide healthy food choices for our citizens and many of our small farms offer educational opportunities for our local schools. They are supporters of our communities and they are stewards of the land. Our small farms use their land responsibly to support their families and if this bill fails, these farms will not financially survive and, in many cases, generations of hard work and passion will be forever lost -- we cannot let this happen! We need our small and medium farms throughout our great state!

Please pass this bill - we need our farms for a better Oregon today, tomorrow and forever!
