No Sales Tax. This State of Oregon has been mismanaged and we need straighten out what's been done to ruin it. There is enough money if a budget is followed and our government managed it properly. I'm tired of my paycheck being robbed. Instead of government cutting spending they create more committies to look at what is wrong, who the heck came up with that ridiculous idea...government. instead of finding a better way to take care of government employees...oh let's add PERS that will kill the budget. That's all that Oregon has been dealing with...more spending and more taxes. It's time for a chopping block and cut government, cut spending, live in the budget from 10 years ago.
