Committee:

House Committee On Education

Measure, Appointment or Topic:

HB4066

I oppose the proposed change for section 1. The clause to recuse student voices from matters that concern students. What is the point of having students on the board if they are to be silenced and stripped of voting powers on matters that concern them and their peers? They are presumably vastly outnumbered by adults even if with the power of a vote or voice to speak.

Otherwise, the other proposed changes in this act are acceptable.

Respectfully, Adam Logan.
