Working Oregonians are struggling enough and the Democrat run Oregon government has proven again and again that they will mismanage any funds given to them. Instead of working to find manageable cuts in the budget and funding the necessities like police and roads (maintaining them, not building boondoggle pedestrian bridges nobody uses) they just want more and more of our hard earned money. Enough is enough. The federal government is doing the right thing by giving working Americans some financial relief by lowering our taxes and Kotek and her ilk want to take it from our hands for their own use. They are losing federal funding due to terrible decision making like being a "sanctuary state", their horrible transportation bill is being rejected by the people who would have to pay for it, and they are desperate to replace it to pay for pet projects that history has shown don't work. Solution? Obey the laws of the land and receive federal funds? Reach across the aisle and have positive non-partisan conversations about how to work with what we have or how to use existing funds efficiently? No, instead they want to pickpocket tax paying hard working Oregon residents. We the people say NO!
