

Submitter: Lou Chapman

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB1541

I live in Portland Oregon and strongly support the notion that big oil has cost Oregonian residents billions by causing climate pollution. The Climate Resillience Superfund will make the largest, out-of-state fossil fuel polluters pay their share for our safety and recovery, instead of Oregonians. From wildfires to polluted water we've seen communities across the state bear the brunt of our climate crisis. For too long, the cost of cleaning up the impacts of climate change has been the responsibility of us Oregonians and local governments. We've been footing the bill while fossil fuel companies rake in the profits. That needs to end. As legislators you have the power to shift the costs from your constituents to these mega corporations. I urge you to pass SB 1541 and finally make these polluters pay for the damage they've done to communities across our state. Thank you.
