

Submitter: Renee Edwards

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB4153

My family relies heavily on small farms near my community. That would be affected negatively by this bill.

Also, it is clear that true sustainability for the Earth is going to depend on many small farms in people, planting trees and other plants in even small yards, but especially small farms. And these need to be supported with all that we can do please consider the future of not only us Oregonians but the planet.

Thank you

Renee Edwards
