Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water
Measure, Appointment or Topic: HB4153

With our contaminated and unpredictable food sources available to us through markets, my family has chose the small farm raised food without pesticides! If you make the rules to accommodate big businesses you'll have accomplished what you did in the 70's to milk farmers with Grade A barns. My grandfather after a lifetime of supporting his family with the cleanest milk I've ever drank in my lifetime had to retire because the cost was too much! Don't repeat history.
