

Submitter: Felicia Kongable  
On Behalf Of:  
Committee: Senate Committee On Natural Resources and Wildfire  
Measure, Appointment or SB1541  
Topic:

Please move SB 1541 out of committee! This important bill will cost Oregonians basically nothing, and can help us to withstand the effects of climate change that the biggest oil companies knew, and know, their production is causing.

This Oregon winter has been warm and very dry because of climate change. I am particularly worried about water supply- our water comes from the Clackamas River, which has no reservoir, and depends on the snowmelt from Mt. Hood and environs. What will we do? And then there is the increased fire-risk.

Thank you, Felicia Kongable
