Measure, Appointment or HB4153
Topic:

Our farmstands are a long held American tradition that brings communities together. This Bill seems to be one more step toward corporatization of America. Local produce tastes better and is probably more nutritious since it isn't picked early for transporting and certainly provides for a far more pleasant experience than supermarket shopping. Small businesses are the heart and sole of America. Why would you take away peoples ability to gain income during these HARD TIMES? Don't give our rural communities another reason to distrust government motivations. Vote no!
