To the House Committee on Agriculture,

HB 4153 is not the answer! I must vehemently oppose this bill in defense of the small stand owners who rely on the income from their stand and the customers who desperately need quality fresh local food, that is NOT available at our local grocery stores. I can appreciate the pro's for the larger farmers and give them the ability to bring people to their farms and providing additional revenue streams to make their farms viable, but you will KILL the really small farmers just trying to get by. Without their farmstands to sell the wholesome quality fresh food they produce, what are they to do? It is a crying shame that you want to take away these farmstands and for what purpose?!
