

Submitter: Rhesa Ramdeen  
On Behalf Of:  
Committee: House Committee On Transportation  
Measure, Appointment or Topic: HB4085

I'm against this proposal as it is invasive of my privacy and the privacy of other citizens. Especially given the current climate of facism being implemented via Big Tech surveillance, we should not allow another tech company to utilize cameras in our state. Residents will have no control on how their images and data are being used. Additionally, this takes away much needed jobs from people who drive taxis and ride shares for a living.
