

This is in support of HB4134-1.

To: Chair Nathanson, vice chairs Reschke & Walters & members of the committee.

From: Miles Lothamer 02/05/2026

Dear: Chair Nathanson & members of the committee. Hello, my name is Miles Lothamer. I am an 8th grader at Sunny Side Environmental School in Portland Oregon. I strongly think you should support bill HB4134-1 which will help Oregon's Beautiful nature. Phone #: 503-776-0236. Email: mileslothamer@gmail.com or mlothamer2447@student.pps.net.

I have lived in Portland my entire life & I go to my grandparents live in the woods of southern Oregon near cave junction. I go to their house every summer and there is always a high fire risk, so in the summer I worry about them. I would love it if this bill could get passed & I won't have to worry about my grandparents in the summer.

It's not even that much tax. Think about it this way it's \$1.25 for every \$100, you're probably only spending an extra \$2 or so, that's the same price as some cheap snacks. So would you rather buy some snacks or help Oregon's environment? A better landscape means more people come to see it, which will be worth it.

Pass the bill please & thank you.
