

Submitter: Kyle Colgan

On Behalf Of:

Committee: House Committee On Transportation

Measure, Appointment or Topic: HB4085

I strongly oppose allowing dangerous un-manned vehicles in our state. They have caused severe traffic congestion with automation failures in cities they are used, and they have struck children because of not "seeing" them. I am also deeply concerned about how vehicles like this are functionally 24/7 roving surveillance cameras with 360° view.
