House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Hello. My name is Jody Burkholder. I am writing to give my strong support to HB 4134 with the -1 amendment. This bill would secure the sustainable funding for what most Oregonians support: the recovery of Oregon's most vulnerable fish, wildlife and habitats. Not only is the health of our rich and diverse ecosystems essential to our economy, we Oregonians cherish our time spent in these canyons, rivers, and deserts. I have been camping in Central and Eastern Oregon for more than 30 years. These landscapes nourish me and my husband. I wish the same for my children and grandchildren. I thank you for supporting this investment in the future of our beautiful high desert lands.
