At Camp Westwind we went to a place called the Point. At the Point we had an amazing view of both the ocean and the forest. On the walk there we could hear frogs croaking and insects buzzing. If we don't work to save wildlife then those things might not happen again. Westwind has some of the best wildlife I have seen. Westwind is almost completely isolated from the rest of the world. We see wildlife that are endangered and that just makes the experience even but if that is gone from Westwind and the rest of Oregon then people won't bother visiting at all. That extra 1.25% won't make much of a difference for individual people paying but the more people that come to see the wildlife the more money we have to support wildlife and then more people will come causing more money to help save animals. It would make \$2.50 more from a \$200 bill.

We urge you to support HB 4134-1.

Sincerely,  
Solomon
