HB4134

As a lifelong Oregonian and a concerned citizen of this country, I wholeheartedly support HB 4134 and its long-term, dedicated funding for conservation. Oregon is a recreation culture and economy, and the outdoors are an enormous part of that. Conserving our wild spaces and ensuring that those spaces receive dedicated funding is crucial in the face of federal administration changes and the climate crisis. Please support HB 4134 and ensure that Oregon remains pristine for future generations. Thank you.
