

Submitter:

Susanna DeFazio

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I live in Sisters, Oregon and recreate throughout Eastern Oregon from the Idaho border to the Cascades, from the Nevada & California border to the Columbia River. I support HB 4134. It is essential that Oregon provide long term funding to recover and sustain species and habitats. Oregonians rely on the state to provide funding to protect biodiversity and healthy ecosystems - now more than ever, given the threatened collapse of federal protective measures.
