

Submitter: Christine Warden-brown

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB4153

We are a small homestead on 8 aches that currently raise poultry and water foul for eggs. We sell these in a small egg stand at the end of our driveway, following current guidelines, to support farm to table agriculture in our neighborhood and community. The funds collected is used to support feeding our flock and providing infrastructure for our flocks. Limiting our ability to continue this practice will have negative repercussions for not only us but all small homestead and backyard farming folks as well. Limiting sustainable, fresh fruits, vegetables and eggs to our neighbors and our communities is a significant step in the wrong direction.

We say NO to this proposed change that would negatively impact all of us.
