

Submitter:

Catharina Biber

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

My name is Catharina Biber, and I live in Central Oregon, where water resources are front and center everywhere we look. To improve resilience of our water supply to climate variations like the snow drought we are experiencing right now across the Pacific Northwest, it is absolutely imperative to keep our natural spaces and especially our high desert rivers as healthy as possible. Please support this bill.
