My family and I adamantly oppose this bill! How can you even consider that this would benefit Oregon at all?

After reading what this bill would consist of, I can't understand how any individual would be in favor of this. Corporate farms?. Yes.

Family farms? Absolutely not! This bill would take away the very farm to family connection that is so basic to the core of Oregon, and the core that we are desperately trying to cling to as we raise healthy children who understand the connection between what they eat and where it SHOULD come from.

That you would even consider co-sponsoring a bill like this, David Brock-Smith, shows very clearly where your interests are.

Please, let's do everything we can to prevent this bill from passing.
