Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water  
Measure, Appointment or Topic: HB4153

I want express the alarm I feel upon reading the provisions in HB 4153. This bill would cut out small scale, local farmers from having the right to sell their products to the public directly at their own farm stand. It attacks our local food security sustainable small scale farms and hands over control of our food production into ever larger and more centralized hands of large scale agriculture. Stop the attack on our rural farming and food production system! We have all seen the weaknesses and vulnerabilities of big agriculture. Save our food security!
