

Submitter: Cheryl Conway  
On Behalf Of:  
Committee: Senate Committee On Natural Resources and  
Wildfire  
Measure, Appointment or Topic: SB1541

Dear Chair Golden, Vice-chair Nash, and Members of the Natural Resources and  
Wildfire Committee,

I am tired of suffering from and paying for the environmental harm to our local  
communities caused by fossil fuel companies that knew for decades the damage they  
were doing. And all the while reaping billions in profit. It is time to hold these  
companies accountable. That's why I support SB 1541 that will create the Climate  
Resilience Fund. I ask you to do the same.

The Climate Resilience Superfund will help pay to prepare homes, powerlines, and  
vulnerable communities to better survive wildfire. It will help pay for energy-efficient  
modifications to lower energy costs as we seek relief from smoke and extreme heat.  
It will provide funds to mitigate the flooding and drought that has devastated  
communities.

I urge you to pass SB 1541 to shift the costs of climate change from your constituents  
to these mega corporations. Yes, make polluters pay!

Sincerely,  
Cheryl Conway
