

Submitter: Kim Evans
On Behalf Of:
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: SB1598

I strongly oppose SB 1598.

Medical decisions, including vaccination, should remain between patients and their healthcare providers—not mandated or expanded through state authority. One-size-fits-all policies fail to account for individual medical histories, risks, and informed consent.

SB 1598 undermines bodily autonomy and sets a concerning precedent for government overreach into personal healthcare decisions. Public trust in medicine is built through transparency and choice, not coercion.

I urge you to oppose SB 1598 and protect medical freedom and informed consent for Oregonians.

Sincerely,
Kim Evans
