Measure, Appointment or SB1541  
Topic:

I am writing you today to voice my strong opposition to this bill as it will further burden businesses economically that are already struggling due to Democrat imposed over regulation. European countries have been backpedaling out of the "green energy" movement for years as it doesn't work with economies of scale and will have a negligible positive impact on climate. All this bill will do is continue to drive businesses out of our state which is already in massive economic decline.
