

Submitter: Aidan Larcombe

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB1541

To whom it may concern

The state of Oregon is in a climate crisis

This is mostly the fault of out of state big oil companies, conglomerates, and
entrenched fossil business interest.

individuals are blamed for our carbon footprint

Yet the corporations keep emitting with impunity.

I am emailing in strong support for the passing of the senate bill 1541

this will make oregon more resilient to wildfires with energy efficient cooling and
protection from extreme weather, it will invest in agriculture and other working class
industries

we the people need climate justice!
