HB4114

I'm writing as a concerned citizen in support of this bill. We must adopt all measures we can to stop ICE agents from terrorizing our communities. Our liberty as American citizens is in direct threat by the directive and rhetoric of the Trump administration, and the unwarranted action by ICE agents in multiple American cities. These agents must be held to the same code as all enforcement entities in the US, as well as its citizens.

The danger is clear - the course of action is set - it is now up to our legislators and representatives to take action against this course. Do not let your own fear or passivity cause you to look away from what takes places on your watch. You are an elected leader and now is the time for leadership.
