Measure, Appointment or Topic: SB1541

I strongly support SB 1541. SB 1541 targets the fossil fuel companies responsible for creating the climate crisis, lying about the damaging effects of their pollution while making obscene profits and leaving states, cities and citizens with the burdens. The cost to Oregon to respond to and mitigate the damage to the environment and the health and wellbeing of Oregonians is staggering. With the current federal administration dismantling our environmental protections it's critical that Oregon find creative ways to fund the programs that protect all that is precious and necessary for life in Oregon. I urge you to resist efforts to water down or create exceptions with amendments and vote yes on HB 1541. Thank you for your time and consideration.
