

Submitter: Andrew Oldenburg  
On Behalf Of:  
Committee: Senate Committee On Commerce and General Government  
Measure, Appointment or SB1593  
Topic:

Oregon's outdoor recreation is a key part of why we all live here. People should not be given \$10's of millions of dollars for injuring themselves while voluntarily participating in dangerous activities. If you allow these lawsuits to continue it benefits only the plaintiff attorneys and a few people while harming our entire state. We need to eliminate this type of lawsuit so we can all enjoy outdoor recreation at our own risk.
