

Submitter: Michelle Kaseberg
On Behalf Of: myself
Committee: House Committee On Revenue
Measure, Appointment or Topic: HB4148

This bill would allow recipients of TLT revenues the ability to allocate up to 60% to their general funds, to help offset the costs of increased tourism costs (i.e. roads, emergency response, public safety, local infrastructure, etc). It would still leave a minimum of 40% to go to tourism (marketing events, tourism related facilities, etc). It doesn't say that all have to go to this split, allows for each county to make their decision within these guidelines while still supporting tourism.

Thank you for supporting this bill.

Michelle Kaseberg
