I oppose this bill because it puts further restrictions on small farmers in our state, and we are already under attack to the point of most of us being forced out of business. I operate a small Cranberry farm in Coose County. I don't have a Farm stand, but I regularly purchase from them and value their unique products. Having only a 40 acre parcel, I have already faced numerous restrictions to my ability to Farm and use my land as I see best. States that value the option to purchase food from small farms, food diversity and healthy food production do not limit farmers in this way and try to force them out of business. More laws and restrictions just put more farmers out of business. Less food for all and taking away peoples right to earn a living off their land. Please do not pass this bill.
