Committee: Joint Special Committee On Referendum Petition
2026-302

Measure, Appointment or
Topic: SB1599

This proposal is nothing more than a bait and switch. The ballot measure that I signed said this measure would be voted on in the November election. That referendum passed with that provision. The state could have changed that date before the measure received overwhelming support, but you chose not to. Our governor tried to kill this measure before it even got started by delaying the start of signature gathering. Now you are trying to kill it by changing the date of the election - and more importantly, you are also trying to get it off the general election so you can protect your seats in that election. Start doing what you are supposed to be doing and representing the people of this state. Kill this proposal now.
