This bill, to establish a climate superfund, looks like another boondoggle, to take money out of circulation, toward a well intentioned idea. PERS was well intentioned! All we need is another costly tax that will become an ever increasing burden on taxpayers, including business, in Oregon.

Businesses are, already, leaving. We should be developing enhancements, and removing disincentives. It's time to contain/limit government spending.

I urge a NO vote, on this bill.

Thank you, for your service.
