This bill is important to me because it begins to hold entities accountable for the environmental damage they have caused, while providing the State of Oregon a means to remediate some of the damage..

From wildfires to polluted water, we've seen communities across the state bear the brunt of our climate crisis. For too long, the cost of cleaning up the impacts of climate change has been the responsibility of us Oregonians and our local governments. We've been footing the bill while fossil fuel companies rake in the profits.

That must end.

As legislators, you have the power to shift the costs from your constituents to these mega corporations. I urge you to pass SB 1541 and finally make these polluters pay for the damage they've done to communities across our state.
