

Submitter: LaNicia Duke  
On Behalf Of:  
Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water  
Measure, Appointment or HB4153  
Topic:

This bill was defeated once, let's do it again! This is harmful for rural communities where food deserts prevent access. Small farms help keep healthy food in community. This is part of people's livelihood and a source of income.

Why would we take healthy food away from communities when there is a national mandate to make us healthy again, formally known as MAHA.

In rural communities, our small farms need MORE support. They don't need their lives ripped from under them.

Please vote no.

Rural and urban communities will suffer.
