

Submitter: Mia Schurter  
On Behalf Of: My 3rd grade class  
Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water  
Measure, Appointment or Topic: HB4153

I explain the bill as best as I could to my third graders and here is what they had to say:

Dear Oregon legislators

I think that house bill 4153 should pass because the new rules are more fair than the old ones. Then again who among our community can cast the first stone, who among our community will make better and more fair rules for the country. Nobody else but our class because in my class we believe in a better future for our country and reasonable laws. I want to be able to change the world and provide a better state and a better place for the future kids that live on farms, for them to be able to live there and for the parents to pay the rent. Then we have provided a better community and to be or not to be I hope you decide my opinion of what to do because when I grow up and I have kids I want them to live in a better place.

Sincerely

Rian Rey Rodriguez

This new law lets schools have field trips. I went to EZ Orchards.

My favorite part was eating the donuts and I learned that apple trees take a long time to grow.

\_Whitney

Frist, it allows farms to have feild trips. In October we went to EZ orchards. My favorite part was the donuts and apple siter.

Second,

I agree that people can not park whaever they want.

They should pick up after themselves, not litter which this new bill helps enforce.

-Emery

All but one of my students was in favor of this bill except one. he thought that the stores should be allowed to get as big as they want but in his words that was " the only good thing about the current law." With an understanding for land use, this reason doesn't not stand so please consider our support for house Bill 4153.
