Measure, Appointment or Topic: SB1541

Oregon businesses are under pressure not only in the marketplaces in which they do business, but also due to Oregon's regulatory and tax policies.

This measure would act to place another hindrance to Oregon's business community, creating additional costs for business owners and making them even less competitive to their competitors in other states.

The Oregon legislature needs to reduce the burden of regulations, not continue to pile on additional layers, costing Oregon jobs in the process.

We need to focus on our education system and create a skilled workforce that will give our students an opportunity to succeed in an ever changing workplace.
