

Submitter: James Baucom  
On Behalf Of:  
Committee: Senate Committee On Natural Resources and  
Wildfire  
Measure, Appointment or Topic: SB1541

This bill would establish an unnecessary Climate Superfund.

This would create a new disaster fund housed in the incompetent Oregon State Treasury.

1. The Oregon Treasury has ALREADY shown as an agency to be irresponsible with our money. They have invested poorly with PERS why would it be ANY different with this fund.

The bill would be funded by companies responsible for emitting carbon which are supposedly causing the damage.

2. This will punish companies based on "carbon" emitted and be passed onto the consumers& added to every stage of product delivery.

We already have the poorly thought out Climate Protection Program that was placed on Oregon via executive order during Covid by Kate Brown when she was the governor that are slated to increase our energy costs significantly for no good reason.

3. Oregonians CANNOT afford more energy costs disguised as saving the environment.
