Measure, Appointment or SB1541  
Topic:

Chair Golden, Vice-chair Nash, and Members of the Committee,

I support the creation of the Climate Resilience Superfund, to hold polluters accountable by making the large, out-of-state fossil fuel companies pay their fair share. They should participate in cleaning up their own mess. From wildfires to polluted water, we've watched as communities across the state have felt the worst of our climate crisis. For too long, the cost of cleaning up the impacts of climate change has been the responsibility of Oregonians and our local governments. We've been footing the bill while fossil fuel companies rake in the profits. That must end. As legislators, you have the power to shift the costs from your constituents to these mega corporations. I urge you to pass SB 1541 and finally make these polluters pay for the damage they've done to communities across our state.
