Dear Chair Golden, Vice-chair Nash, and Members of the Committee,

Polluters should have to pay their own way and not burden us to cover the costs of cleaning up their mess no matter what. I support the Climate Resilience Superfund.

From wildfires to polluted water, we've watched as communities across the state have felt the worst of our climate crisis. For too long, the cost of cleaning up the impacts of climate change has been the responsibility of us Oregonians and our local governments. We've been footing the bill while fossil fuel companies rake in the profits.

That must end.

As legislators, you have the power to shift the costs from your constituents to these mega corporations. I urge you to pass SB 1541 and finally make these polluters pay for the damage they've done to communities across our state.
