

Submitter: ML Herring  
On Behalf Of:  
Committee: Senate Committee On Natural Resources and Wildfire  
Measure, Appointment or SB1541  
Topic:

For the sake of our children and Oregon's future, please support creating the Climate Resilience Superfund that will force large polluting companies to pay for the damage they are creating. From manufacturing to landfills, giant corporations have used Oregon land as their dump. All of us live downstream, downwind, or next door to these toxic sites. And all of us pay the price, either in costly environmental clean-up or in heart-breaking damage to the health of our families, land, and water. We've been paying with our lives as fossil fuel companies, mineral industries, and billion-dollar landfill corporations profit from our losses. Please pass SB 1541 and make these polluters pay for the damage they've done to communities across our state.

Thank you,  
ML Herring, Corvallis Oregon
