

Submitter: Sandy Thompson  
On Behalf Of:  
Committee: Senate Committee On Natural Resources and Wildfire  
Measure, Appointment or SB1541  
Topic:

Dear Chair Golden, Vice-chair Nash, and Members of the Committee,

I support creating a Climate Resilience Superfund. Polluters must be held accountable. Large, out-of-state fossil fuel companies, for example, must pay their fair share of damages in Oregon, including from the climate crisis--wildfires, polluted water, fish & forest issues, ... Communities across the state are suffering. The cost of cleaning up the impacts of climate change and other issues must shift to those who contribute to these issues. You have the power to shift costs from your constituents to the corporations involved. Pass SB 1541 and finally make polluters pay for the damage they've done.
