Measure, Appointment or Topic: SB1541

Mess and pollution is what humans do. Nature knows how to keep everything clean and in balance and does so beautifully. We should be responsible for every bit of mess we make and should pay both in financial terms and by physically repairing the damage. The Climate Resilience Superfund will go a long way towards redressing the balance. I support it for the sake of myself, my community, the state and the planet. Please make sure SB 1541 passes and gets put into effect as soon as possible. Thank you for doing what is right for Oregon.
