Dear Chair Golden, Vice-chair Nash, and Members of the Committee,

I am a happy contributor to the workforce, clocking two jobs just to have enough money for rent. I love my job as a special needs teacher, and restaurant hostess. The fact that I am paying the price ( my health, and safety) out of my already thin wallet, when mega corporations with enough money to feed the whole planet won't take responsibility, is truly disheartening. I love our country, and the people, plants, and wildlife within it. Please take care of this beautiful country and its people by making the polluters pay. If you love America, you will protect it. As legislators, you have the power to shift the costs from your constituents to these mega corporations. I urge you to pass SB 1541 and finally make these polluters pay for the damage they've done to communities across our state.
