Measure, Appointment or Topic:	SB1541

Dear Chair Golden, Vice-chair Nash, and Members of the Committee,

The devastation from climate change is already unfolding around us, and I think it would be a waste of words for me to explain to you its severity. We all know that the time to act on climate change is now - any later and we will struggle more to turn back the clock. The best way to drive permanent change is through an economic approach, and this type of tax is what we need. Please support SB 1541 to hold polluters accountable and drive the shift we need.

Thank you.  
Sage
